Probability Theory

and Related Fields

Continuation of
Zeitschrift für Wahrscheinlichkeitstheorie

Volume 115 1999

Managing Editor

E. Bolthausen — Editorial Office of PTRF, Institute of Applied Mathematics, University of Zürich, Winterthurerstrasse 190, CH-8057 Zürich, Switzerland

Honorary Editors

K.L. Chung, Stanford — **K. Krickeberg,** Paris — **L. Schmetterer,** Wien

Editorial Board

M.T. Barlow

Springer

"**Probability Theory and Related Fields**" was founded in 1962. The original title was "**Zeitschrift für Wahrscheinlichkeitstheorie und verwandte Gebiete.**" As of Volume 51, 1980, the subtitle *Probability Theory and Stochastics* was added. Beginning with Volume 71, 1986, the main title was adapted into English.
The first Managing Editor was L. Schmetterer, who was succeeded by K. Krickeberg in 1971, by H. Rost in 1985, O. Kallenberg in 1991 and by E. Bolthausen in 1994.

Copyright
Submission of a manuscript implies: that the work described has not been published before (except in the form of an abstract or as part of a published lecture, review, or thesis); that it is not under consideration for publication elsewhere; that its publication has been approved by all coauthors, if any, as well as by the responsible authorities at the institute where the work has been carried out; that, if and when the manuscript is accepted for publication, the authors agree to automatic transfer of the copyright to the publisher; and that the manuscript will not be published elsewhere in any language without the consent of the copyright holders.

All articles published in this journal are protected by copyright, which covers the exclusive rights to reproduce and distribute the article (e.g., as offprints), all translation rights as well as the rights to publish the article in any electronic form. No material published in this journal may be reproduced photographically or stored on microfilm, in electronic data bases, video disks, etc., without first obtaining written permission from the publisher.

An author may make an article published by Springer-Verlag available on a personal homepage provided the source of the published article is cited and Springer-Verlag is mentioned as copyright holder. Authors are requested to create a link to the published article in LINK, Springer's Internet service. The link must be accompanied by the following text: The original publication is available in LINK at http://link.springer.de. Please use the appropriate URL and/or DOI for the article in LINK. Articles disseminated via LINK are indexed, abstracted and referenced by many abstracting and information services, bibliographic networks, subscription agencies, library networks, and consortia.

While the advice and information in this journal is believed to be true and accurate at the date of its going to press, neither the authors, the editors, nor the publisher can accept any legal responsibility for any errors or omissions that may be made. The publisher makes no warranty, express or implied, with respect to the material contained herein.

Special regulations for photocopies in the USA. Photocopies may be made for personal or in-house use beyond the limitations stipulated under Section 107 or 108 of U.S. Copyright Law, provided a fee is paid. All fees should be paid to the Copyright Clearance Center, Inc., 21 Congress Street, Salem, MA 01970, USA, stating the ISSN 0044-3719, the volume, and the first and last page numbers of each article copied. The copyright owner's consent does not include copying for general distribution, promotion, new works, or resale. In these cases, specific written permission must first be obtained from the publisher.

The Canada Institute for Scientific and Technical Information (CISTI) provides a comprehensive, world-wide document delivery service for all Springer-Verlag journals. For more information, or to place an order for a copyright-cleared Springer-Verlag document, please contact Client Assistant, Document Delivery, Canada Institute for Scientific and Technical Information, Ottawa K1A 0S2, Canada (Tel: 6 13-9 93-92 51; Fax: 6 13-9 52-82 43; e-mail: cisti.docdel@nrc.ca).

Contents of Volume 115 (1999)

Alòs E, León JA, Nualart D: Stochastic heat equation with random coefficients 41

Anshelevich M: The linearization of the central limit operator in free probability theory 401

Bougerol P, Jeulin T: Brownian bridge on hyperbolic spaces and on homogeneous trees 95

Buckdahn R, Peng S: Stationary backward stochastic differential equations and associated partial differential equations 383

Capiński M, Cutland NJ: Existence of global stochastic flow and attractors for Navier–Stokes equations 121

Crisan D, Lyons T: A particle approximation of the solution of the Kushner–Stratonovitch equation 549

Cutland NJ → Capiński M 121

Dasgupta A, Kallianpur G: Chaos decomposition of multiple fractional integrals and applications 527

Dasgupta A, Kallianpur G: Multiple fractional integrals 505

Dupuis P, Ramanan K: Convex duality and the Skorokhod Problem. I 153

Dupuis P, Ramanan K: Convex duality and the Skorokhod Problem. II 197

Elworthy KD, Li X-M, Yor M: The importance of strictly local martingales; applications to radial Ornstein–Uhlenbeck processes 325

Fontes LRG, Isopi M, Newman CM: Chaotic time dependence in a disordered spin system 417

Gentz B, Löwe M: The fluctuations of the overlap in the Hopfield model with finitely many patterns at the critical temperature 357

Isopi M → Fontes LRG 417

Jeulin T → Bougerol P 95

Kallianpur G → Dasgupta A 505

Kallianpur G → Dasgupta A 527

León JA → Alòs E 41

Li X-M → Elworthy KD 325

Löwe M → Gentz B 357

Lyons T → Crisan D 549

Maes C, Shlosman S: Freezing transition in the Ising model without internal contours 479

Młotkowski W: Free probability on algebras with infinitely many states 579

Newman CM → Fontes LRG 417

Nualart D → Alòs E 41

Peng S → Buckdahn R 383

Ramanan K → Dupuis P 153

Ramanan K → Dupuis P 197

Salisbury TS, Verzani J: On the conditioned exit measures of super Brownian motion 237

Shlosman S → Maes C 479

Simon T: Subordination in the wide sense for Lévy processes 445

Sznitman A-S: Slowdown and neutral pockets for a random walk in random environment 287

Verzani J → Salisbury TS 237

Yor M → Elworthy KD 325

Yoshida N: The log-Sobolev inequality for weakly coupled lattice fields 1

Comprehensively covered by *Zentralblatt Math, Mathematical Reviews* and *Current Contents*
